Whereas, any allocation of money from the Shared Governance Reserve Account is an important decision,

Whereas, this important decision may require time to consider all aspects of the benefits and the costs of what is to be funded,

Whereas, enacting an "introductory only" status to the request would be a practice that will provide more time to consider the request, and so long as the funding request is submitted in a timely manner, carry no adverse consequences,

Whereas, without this precedent in place and assuming that the agenda comes out two full days before the meeting, the maximum amount of time to consider the request before a vote is two full days, which may leave those members with an inadequate amount of time to fully consider the benefits and costs of the request,

Whereas, it is acknowledged that sometimes this introductory status is not always obtainable due to various reasons, and an "escape" clause should be included,

Therefore, be it resolved that the following By-Law changes be implemented immediately:

ARTICLE V. Finance

Section B. University Student Reserve Account

1. All allocations from the University Student Reserve Account require Student Association Student Senate approval. *Any request for funding through the Shared Governance Account will require an "introductory-only" status for one week before being voted on. If the circumstances for whatever reason do not allow for this introductory status, Senate may, by a 2/3 majority vote, hear and vote on the motion.*

2. Reserve account monies will be allocated in the following situations:

a. An emergency basis

b. Organizations or activities that meet requirements outlined in the Reserve Fund Policy Paper and approved by the Allocable Fee Appropriation Board and the Student Association Student Senate.
