The purpose of the multicultural field experience is to increase a student's understanding, sensitivity, and appreciation of ethnic and cultural diversity in the urban school setting. It is hoped that the student's direct involvement with students, and exposure to teaching practices within a school setting will contribute to his/her personal and professional development. The student's field experiences are guided by the following goals.

1. Developing a greater comfort level and appreciation working with ethnically and culturally different students and parents.
2. Acquiring knowledge, which enables one to teach culturally, and ethnically diverse students more effectively.
3. Understanding and respecting the perspectives of others whose social-cultural heritage differs from one's own.
4. Strengthening one's commitment to improving the educational opportunities of all students regardless of race, ethnic group identity, social class, sex, gender, language, or national origin.

In your opinion, did the student make progress toward the above goals? ____Yes ____No

Was the student responsible in meeting the school's needs? _____Yes ____No

Please feel free to use the back of this form to write comments about this student's strengths and/or weaknesses, which you observed during this placement. Please mail the form to the instructor of the course at the following address:

Dr. Genella Stubrud
