

Academic Standards Committee

December 11, 2006

Present: Kurt Leichtle, Dawn Hukai, Jim Tangen-Foster, Dan Vande Yacht, Vicki Hajewski, Steve Luebke, Roark Atkinson, Keith Chavey, Doug Johnson

The discussion on I and SP grades continued from the previous meeting. A draft document was discussed. Dan VandeYacht pointed out that a provisional grade could not be submitted electronically without significant programming changes. The committee concluded that most instructors would not submit provisional grades via paper format and thus the system was, at this point, impractical. Further discussion about the wording of the draft dealt with the question of what difference existed between the I and SP grades and whether both options were needed. The consensus was both served uses and should be retained.

The committee decided to continue its discussion after break and look at new draft language.

Meeting adjourned at 12:30.

Next meeting to be set in as schedule are available.
