

14. If you have not created a folder you need to make a folder that will include your final PowerPoint, all files used in the PowerPoint and all of the final Impatica materials. IF YOU CREATED A FOLDER FOR THESE FILES PRIOR TO OPENING IMPATICA, IMPATICA WILL AUTOMATICALLY SEND THE FILES TO THIS FOLDER.

15. When emailing these files change the suffix –imp.jar or .jar to .abc, inform the recipient to change the files back the original suffix after downloading.

GOOD LUCK!!!!!! Any questions please see one of the TLC members. (We are in the Orange vests in the Wyman Education Building)
