**Department:** Computer Science and Information Systems

**Program Name:** Computer Science-IS Option

**Program Level:** Undergraduate

**College:** Business and Economics

**Program:** Minor

**Submitted by:** Hossein Najafi

**Title:** Department Chair and Professor

**Contact:** hossein.najafi@uwrf.edu

**Submission Date:** August 18, 2017

**Program Outcomes**

**Outcome 1:** A graduate will be able to understand how information systems support business operations.

**Outcome 2:** A graduate will be able to demonstrate skills in programming.

**Outcome 3:** A graduate will be able to design, implement, and interact with a structured relational database using Graphical User Interface (GUI) and Structured Query Language (SQL).

**Outcome 4:** A graduate will be able to demonstrate skills in modeling business requirements through systems analysis.
Department: Computer Science and Information Systems

Program Name: Computer Science-CS Option

Program Level: Undergraduate

College: Business and Economics

Program: Minor

Submitted by: Hossein Najafi

Title: Department Chair and Professor
