During the FY12, the Academic Success Center provided tutoring services to 25.8% of the student population – 1,750 students representing 39 majors and 10 ethnicities. The vast majority of students served identified as white (88.17%), followed by non-specified (4.23%), black (2.46%), Hmong (2.34%), and Asian (1.37%). The remaining five ethnic categories accounted for 25 students or 1.4% of the total number of students served.

Students received tutoring one of two ways, through individual tutoring appointments or walk-in available help rooms. The individual, appointment based tutoring accounted for 2,907 appointments and 3770.13 hours of tutoring, an average appointment length of 1 hour and 18 minutes. Our six help centers accounted for 11,643 visits and 13,171.2 hours of service, an average visit length of 1 hour and 8 minutes.

The majority of students who received our service identified as majoring in the following disciplines: business administration, biology, health and human performance, psychology, marketing communications, elementary education, and animal science.
