I have a bachelor’s degree in Communication Science and Disorders….now what?

Options that require additional education:

- Master’s degree in Vocational Rehabilitation: UW-Stout
- Master’s degree in Special Education: UW-Eau Claire
- Master’s degree in Counseling: UWRF
- Child Life Specialist (requires a 6-9 month internship only)
  http://www.childlife.org/
- Recreation Therapy: UW-La Crosse, UW-Milwaukee, Winona State, Mankato State
  http://www.recreationtherapy.com/trcollg.htm#mm
- Bachelor’s degree in Social Work
- Teaching English as a Second Language (TESOL)
  http://www.uwrf.edu/catalog/catalog_current/programs/tesol.htm
- Respiratory Therapy
  http://www.aarc.org/education/accredited_programs/
- Radiology Technician
- Certified Occupational Therapy Assistant (COTA)
- Physical Therapy Assistant (PTA)
- Certified Nursing Assistant (CNA)

Options that do not require additional education:

- Vision Therapy (Christianson Eye Center)

- School District
  - Personal care attendant (PCA)
  - Classroom assistants
  - Substitute teacher (if you have education emphasis)
  - Speech therapy assistant (depends on the state)

- Hospitals/Outpatient Clinics: Consider working in the following departments: rehabilitation, otolaryngology (ENT), pulmonology, GI, neurology, and pediatrics
  - Rehabilitation Aide: work with therapists, order supplies, set up, take down and assist in sessions
  - Support staff, scheduling, billing, etc
  - Patient/family advocate
  - Hospital Unit Coordinator (HUC): manages incoming orders and communicates with medical staff

- Corporate: Support staff, marketing, trade shows, etc. for publishing companies that develop, market, and sell therapeutic materials. A few of many include:
  - Hearing aid companies
  - Prentche Romich(AAC equipment)
  - Ablenet
