The following is a summary of work that we currently anticipate in the coming week. This is subject to change due to the many unpredictable factors involved in a project of this magnitude and complexity.

- Removal of existing street pavement will begin on Monday and continue into Tuesday. Trucks hauling material from site may require intermittent closures at crosswalk. Please be aware of heavy equipment and trucks moving thru the corridor.

- Watermain work will start on Wednesday at Spruce Street and progress east through Second Street during the remainder of the week. Spruce Street will be closed on Wednesday from 9am-3pm and may be closed again on Wednesday from 9am-3pm as needed to finish watermain installation at Spruce.

- Traffic accessing campus using Wild Rose Avenue is reminded to SLOOOOOOOOW DOWN! Be safe and respectful of the campus environment. Thank You!

- Motorists are reminded to be attentive. Spring Street is a one-way eastbound road from Second Street to Sixth Street. Vehicles traveling westbound are subject to citations.

- Regarding On-Street Parking:
  - If the Road is signed “Closed to thru traffic” parking is still allowed unless posted otherwise with supplemental signage.
  - If the road is signed “road closed” it is closed and there should be no traffic or cars parked beyond that point.
