The following is a summary of work that we currently anticipate in the coming week. This is subject to change due to the many unpredictable factors involved in a project of this magnitude and complexity.

- **Storm Sewer** – Install storm sewer in and near the Third and Fourth Street intersections.
- **Roundabout Walls** – Work will begin on footings and walls within Sixth Street roundabout and on second partial wall within the Second Street roundabout.
- **Electrical** – Continue installing conduit and pull boxes for new street lighting system.
- **Steam Tunnel & Chilled Water** – Work will continue on east-west leg in front of North Hall.
- **Grading** – Roadway grading will continue; moving from Fifth Street west to Third Street.
- **Concrete** – Installation of curb, gutter, and sidewalk will continue in the area of Cascade and Sixth Street.
- **Retaining Walls** – Continue work on retaining walls in the northeast quadrant of Cascade and Sixth Street and also near the Sixth Street entrance to Centennial Hall.
- **Pedestrian Access** – On Wednesday, pedestrian access at Fourth Street will be shifted to the east between Fourth and Fifth Streets. Pedestrian access at Third will be unavailable for a few hours likely in the morning on Wednesday.
- **Caution** – Always be careful and focused on the work zone that you are traveling through when in the work zone.

THANK YOU FOR YOUR PATIENCE! Good progress is being made despite some weather setbacks.
