The following is a summary of work that we currently anticipate in the coming week. This is subject to change due to the many unpredictable factors involved in a project of this magnitude and complexity.

- **Roundabouts** – Installation of concrete foundations for bollards at Second Street roundabout has begun and will continue. Delivery of cap blocks for the roundabout walls is scheduled for the 3rd week in October.

- **Asphalt paving** – Final paving on side streets (Spruce, Second, Third, Fourth, Fifth) will be completed on Saturday, September 29.

- **Lighting** – Street lights have arrived and are being installed. We have determined that the lighting poles have a defective finish and we are working with the manufacture and contractor to determine a plan for dealing with this matter.

- **Signage** – Signage is expected to be installed on Tuesday.

- **Trees** – Tree planting has been completed.

- **Plants** – Plants have arrived and will be installed.

- **Mulching** – Mulching of median and roundabout planting areas is expected to occur.

- **Misc.** – Punch list work will continue.

- **Ribbon Cutting** - A ribbon cutting ceremony is being planned for Friday, October 12, 2012, at 11:00 a.m. on the lawn in front of South Hall. In case of rain, the ribbon cutting will be held in room 210 South Hall. Refreshments will be offered. Project managers will be available following the ceremony to answer any project related questions.

THANK YOU FOR YOUR CONTINUED PATIENCE!
