Alcohol Beverage Service Policy
University of Wisconsin – River Falls

Alcohol must be provided by Sodexo and coordinated through the Catering Manager. As an educational institution, the University believes it is our educational mission to be very proactive in serving as a responsible host. Thus alcohol service may be limited in scope, location and time frame. Keg beer may be purchased with a limit of one half barrel per 100 guests. There is not an option of purchasing additional kegs during the event. All other alcohol must be purchased by the glass, bottle, or can on an individual cash basis.

All beverages will be served by licensed bartenders who are responsible for checking identification and enforcing alcoholic consumption laws. In the event minors are suspected of consuming alcoholic beverages, the University Police will respond accordingly.

All alcoholic beverages must be consumed within the room or area where they are purchased. Beverages may not be carried beyond approved areas or outside of the building. Open container citations may be issued to guests by University Police if beverages are carried into Heritage Hall or outside of the building.
