Hello Kathleen,

Angie Whittaker, the SMGT Program Manager, and I are excited to hear you would like to include some of our Sustainable Management (SMGT) classes as electives in your newly revamped Honors Program. I suspect you are aware that SMGT classes have a special tuition and permission requirements. Here is a section from this eSIS course notes:

"Special course tuition of $390 per credit applies to this course and the course may not be counted within the plateaux. This may affect your financial aid; please contact the Financial Aid office at finaid@uwrf.edu or 715-425-3141 with questions about financial aid. Course textbooks are not provided by Textbook Services and must be purchased by the student. If you are a non-Sustainable Management major, please confirm with your academic advisor that this course will count towards your degree. For other questions, please contact Outreach at outreach@uwrf.edu or 715-425-3256."

I suspect that due to the additional tuition and textbook fees, our SMGT courses will not be chosen by large numbers of Honors students, but we would welcome any who find our courses especially appealing. You have our enthusiastic support to list the 13 SMGT classes (230, 235, 310, 320, 325, 330, 331, 332, 360, 430, 435, 440, and 460) as sustainability electives in the UWRF Honors Program.

Best wishes,

Bob Baker
Academic Director, SMGT Major

Hi, Bob and Angie,

The Honors Program curricular re-design committee has come up with a plan to revise the honors program, and part of the revision includes requiring student to take 6 credits in Sustainability (they have to choose 2 of the 3 pillars to meet the requirement). Since we envision a future where online program students could also qualify for the Honors program, we’d like to include some of your SMGT classes as options in our plan. I’m attaching the most recent version of our plan for your review. Can you please review the SMGT classes that are included and tell me

1) If you approve of them being included

2) If you’d like to add anything else.

Subject: RE: Honors Program Redesign Proposal

Kathleen, please drop Econ 328 from your list. Also, Econ 450 is actually an Ag. Econ 450 and is not offered by Economics. Please let me know if you have any question.

Thank you, Hamid Tabesh
Prof. & Chair of Econ.

Subject: Honors Program Redesign Proposal

Hello, chairs,

The Honors Program redesign committee has the proposal for the revised curriculum in its final stages—see attached. In order to move forward with this proposal, we would like emails from each of you stating whether or not you approve of the courses from your department being listed under the #3: Rhetoric and Communication and/or #5: Sustainability sections of the new curriculum before we take the plan to UCC. Please review the attached document and respond stating whether or not you approve of including your department’s courses on the proposal. If you think classes from your department should be included that are not, let me know; if you do not want a class included that is not listed, please let me know that as well. I need all of your responses by February 6th at the latest. Thanks!

other courses are not generally accessible...higher level finance courses with prerequisites, so maybe not too practical for honors. FINC 210 is also "ethical citizenship" gen. ed. requirement, so it may meet more students' needs; and as a 200-level, it's available campus-wide.

Hi, Charles,

Thanks for your speedy response. I have FINC 210 listed under Sustainability. Do you think that 314, 345, 355, and/or 450 should also be included? Or would you prefer to have them left out? Thanks!

Kathleen

Hi, Kathleen -- I would love to see our FINC 210 course included! It is practical consumer finance, yet taught at a "finance" level, demanding and insightful, with a focus on current trends and issues.

Kathleen,  
The SMGT program is in CAFES.
There is no MNGT 310.  ✓
MNGT 389 is special topics so its topic will change from offering to offering.

Otherwise I'd recommend:  
Social Justice: MNGT 330, 340 ✓
Economic Development: MNGT 355, MKTG 355, MNGT 430

Subject: Honors Program Reminder

Hello, Chairs,  

The Honors Program Curricular Re-design committee will be meeting Monday afternoon to finalize the proposal for a new Honors Program, so I need your department’s response as to whether the courses in your department listed on the attached document under #3: Communication and Rhetoric and/or #5: Sustainability are acceptable choices. I need to have responses from all chairs involved as this proposal moves forward through the governance process. Please let me know

1) if you approve of these classes being listed in the revised program documents  
2) if you have any changes or substitutions that you’d like us to make

I really need this information by Monday February 9th at 3pm at the latest. Thank you!
