TRANSMITTAL for GRADUATE PROGRAMS: Changes or Proposals

I. INFORMATION:

A. Check all that apply: Existing Program □ New Program ✓
   Name Change □ Credits Change □ Change in Curriculum □

B. Program Title: MS Health & Wellness Management

C. Department(s) (Originating): HHP
   D. College(s) (Originating): CEPS

E. Programs / Departments Consulted (Requires letters of comment from all departments or programs substantially affected. Signatures of dept. chairs & deans affected by this proposal are required on the attached addendum):
   1)  
   2)  
   3)  
   4)  

F. Catalog year of Implementation: Semester Fall Year 2016

G. Have all courses in this program been approved? Yes □ No ✓

H. Attach Request Narrative
   Include in narrative on attached pages clarification concerning which courses have not been approved, and a rationale for the requested changes or creation of program. If requesting a program change also include a listing of course array for both the current and proposed program.

II. UNIT APPROVALS: Requires signatures of all Department Chairs and Deans whose programs will be substantially affected by the changes or proposal. Signature lines for the affected Departments and Colleges (noted in "E" above), are on the addendum to this form. These signatures should be obtained prior to review by all other shared governance levels.

RE:    New graduate program in Health & Wellness Management

The Department of Health & Human Performance at UW-River Falls, in collaboration with UW-Green Bay, UW- La Crosse, UW- Parkside, UW-Stevens Point, UW-Superior, and University of Wisconsin-Extension, proposes to establish an online Master of Science degree in Health and Wellness Management (M.S. in Health and Wellness Management). This program will respond to recognized growth in the wellness market and the need to prepare trained managers to plan, implement, promote and evaluate comprehensive wellness programs within and across complex organizations and diverse communities. The program will equip students with the competencies required to successfully promote and advance the health and wellbeing of defined groups of people, to effectively lead wellness programs and to conduct research in the discipline.

The degree has been designed to prepare professionals to assume senior leadership positions in the wellness field. It is not designed to train specialists in areas common to the wellness field such as health education, nutrition and exercise science. The program is expected to attract practitioners possessing bachelor’s degrees in these and other specialty disciplines who are seeking leadership positions within or outside their current organizations or are interested in a career change. The program features a multidisciplinary curriculum that draws primarily from psychology, health, nursing/healthcare, communication and management, and represents a fixed curriculum comprising 36 credits (twelve, three-credit courses) to include a required capstone course which represents the culminating experience for students.

HWM 700 Contemporary Health and Wellness Perspectives
HWM 705 Strategic Management for Wellness Managers
HWM 710 Research Methods for Wellness Programs
HWM 715 Persuasion Skills for Wellness Managers
HWM 720 Exercise and Nutrition in Health and Disease
HWM 730 Biopsychosocial Aspects of Health
HWM 740 Health Systems and Policy for Wellness Managers
HWM 750 Planning and Evaluation for Wellness Managers
HWM 760 Wellness Law
HWM 770 Behavior and Development in Organizations
HWM 780 Best Practices and Emerging Issues in Wellness
HWM 790 Health and Wellness Management Capstone
This is a highly collaborative, interdisciplinary program that follows a home campus model, in which students identify/select a home campus to receive academic supports and from which the degree is conferred. The departments and schools/colleges that will offer courses for this program at each institution are as follows:

- At the University of Wisconsin-Green Bay, the M.S. in Health and Wellness Management degree will be housed in the Department of Nursing within the College of Professional Studies.

- At the University of Wisconsin-La Crosse, the M.S. in Health and Wellness Management degree will be housed in the Department of Health Education and Health Promotion within the College of Science and Health.
  
  - At the University of Wisconsin-Parkside, the M.S. in Health and Wellness Management degree will be housed in the Department of Health, Exercise Science and Sport Management in the College of Natural and Health Sciences.
  
  - At the University of Wisconsin-River Falls, the M.S. in Health and Wellness Management degree will be housed in the Department of Health and Human Performance in the College of Education and Professional Studies.

- At the University of Wisconsin-Stevens Point, the M.S. in Health and Wellness Management degree will be housed in the School of Health Promotion Human Development within the College of Professional Studies.

- At the University of Wisconsin-Superior, the M.S. in Health and Wellness Management degree will be housed within the Department of Health and Human Performance.

UW-Extension Division of Continuing Education, Outreach and E-Learning (CEOEL) will provide administrative and financial support for the program. At UW-River Falls, the office of Outreach and Continuing Education will provide administrative assistance (i.e., faculty contracts, student support services, and local marketing), which is funded through CEOEL. UW-Superior will serve as the lead institution to coordinate the consortial agreement application process to seek approval through the Higher Learning Commission (HLC).

The online M.S. in Health and Wellness Management will provide a degree in a recognized high-need area as supported by research that included extensive input from employers throughout the state and region, and will develop competencies to enable graduates to contribute immediately to serve this important function and role within the Wisconsin workforce. It is a degree targeted at adult and nontraditional students possessing a bachelor's degree, and thus broadens access for alumni and others to the university environment.

Note: Much of this narrative is excerpts from the “Request for Authorization to Implement a Collaborative Online Master of Science Degree in Health and Wellness Management” prepared by CEOEL.
