From: James Graham, Chair  
       Faculty Senate  
       University of Wisconsin-River Falls

Re:  UWRF Faculty Senate Motion 2015-16/44

The following motion was passed as two separate amendments by the Faculty Senate on November December 2, 2015:

A motion from the Executive Committee to amend the previously adopted Motion from November 18, 2015:

Approved Motion:

Create a task force consisting of representatives appointed from the Agricultural Engineering Technology (AET), Physics, Chemistry, and Computer Science departments, a student representative, and appropriate administrative and technology support. Other departments should be included or kept informed where their disciplines overlap with our engineering offerings. This may include Geography and Geology. The task force will report back to the Faculty Senate by February 15, 2016.

The objectives of the task force are:

- to discuss and collaborate on a new name for AET
- to design new web pages and resources that promote and explain engineering and technology options at UWRF,
- to create an efficient, accurate, and responsive method for addressing inquiries from prospective students and their families.
Proposed Amendments:

Strike objective 1: to discuss and collaborate on a new name for AET
Strike February 15 and Insert March 15, which was then amended to
March 23

The Amended Motion would read:

Create a task force consisting of representatives appointed from the Agricultural Engineering Technology (AET), Physics, Chemistry, and Computer Science departments, a student representative, and appropriate administrative and technology support. Other departments should be included or kept informed where their disciplines overlap with our engineering offerings. This may include Geography and Geology. The task force will report back to the Faculty Senate by March 23, 2016.

The objectives of the task force are:

• to discuss and collaborate on a new name for AET
• to design new web pages and resources that promote and explain engineering and technology options at UWRP,
• to create an efficient, accurate, and responsive method for addressing inquiries from prospective students and their families.
