Elective Psychology Courses: 9 credits
In addition to completing the course area requirements, the student must take additional psychology courses to achieve the required 36 credits for the major. The electives can be selected from the areas above or any other Psychology courses.

Required Supporting Courses
PSYC 101 General Psychology 3 cr.
PSYC 201 Behavioral Statistics 3 cr.

If PSYC 101 and/or PSYC 201 are not used in General Education, they may be used as elective courses in the psychology major.
The goal of the new curriculum is to provide a strong methodological core to precede our two foundational areas of emphasis: social and experimental psychology. As part of this change, we will now require statistics and methods as prerequisites for the foundations courses, thus helping students to better grasp what they are learning. It is our intention to ensure that all students have a fundamental grounding in the science of psychology before they begin learning about the foundational findings of psychology that are based upon the scientific methods of psychology. The foundations courses are fundamentally unchanged, as is our basic content. However, by requiring all majors to first focus on the methods and statistics of psychology we hope to help students appreciate the scientific nature of our field.

Current Psychology Minor: 24 Total Credits

**Required Courses:** 9 cr. hrs.
- PSYC 101 General Psychology 3 cr.
  (credits can be counted in general education)
- PSYC 201 Behavioral Statistics 3 cr.
  (credits can be counted in general education)
- PSYC 205 Research Methods (writing intensive) 3 cr.
  or PSYC 315 Psychological Measurement and Evaluation

**Electives:** 15 cr. hrs.
Additional courses in Psychology.
Sociology majors with a minor in psychology who have taken SOCI 300 Research Methods may substitute another psychology course for the PSYC 205 or PSYC 315 requirement.

New Psychology Minor = 24 Total Credits

**Required Courses:** 9 credit hours
- PSYC 101 General Psychology 3 credits (credits can be counted in General Education)
- PSYC 201 Behavioral Statistics 3 credits (credits can be counted in General Education)
- PSYC 216 Research Methods

**Electives:** 15 credit hours, Additional courses in Psychology.
Sociology majors with a minor in psychology who have taken SOCI 300 Research Methods may substitute another psychology course for the PSYC 216 requirement.

The Psychology minor remains an excellent option for students from a variety of other programs. The main change is that PSYC 216 Research Methods is now a required course. This will allow minors to take the foundational courses in psychology which have PSYC 216 as a prerequisite.
