Deb -- Is this the resolution regarding collective bargaining? If so, I didn't send it to the chancellor, since it did not appear to require her endorsement.

PAY PLAN AND CHANCELLOR'S DISCRETIONARY FUND DISTRIBUTION MOTION

TO: MARGARET SWANSON, CHAIR FACULTY SENATE
FROM: BRAD MOGEN, CHAIR FACULTY SALARY COMMITTEE
SUBJECT: SALARY DISTRIBUTION RECOMMENDATIONS
DATE: 2/22/01
CC: DEBRA ALLYN

PROPOSED MOTION FROM SALARY COMMITTEE REGARDING PAY PLAN DISTRIBUTION AND CHANCELLOR’S DISCRETIONARY FUND DISTRIBUTION...

Motion From the Salary Committee Regarding Distribution guidelines for the 2001-2003 pay plan.

UW-System guidelines state that "not less than one-third be distributed on the basis of solid performance". River Falls has historically followed a model of distributing salary based on two-thirds solid performance and one-third merit. The Salary Committee is recommending that the same model be followed for 2001—the first year of the biennium. This recommendation of for year 1 of the biennium as the committee would like to evaluate this model over the upcoming year.

Motion from the Salary Committee Regarding Guidelines for the distribution of the 10% of the Chancellor's Discretionary Fund.

The Salary Committee suggests some basic recommendations for the distribution of the 10% Chancellor's discretionary pool—which, if the pay plan is fully funded, amounts to approximately $72,660—with $52,060 being distributed to faculty and $20,600 being distributed to Academic Staff. Although the committee recognizes that the purpose of this pool is "to be used at the discretion of the chancellors to address special compensation needs such as specific market shortfalls by faculty rank and to reward innovative collaborative program delivery and exceptional performance in support of institutional goals", it is our understanding that at River Falls, the primary objective is to address salary compression issues. In order to assure consistent distribution guidelines among various colleges, we recommend the following for the distribution of these monies for the 2001 pay year only:

1. There should be a $2,000 minimum award per recipient;

2. Based upon recent practices of hiring new faculty at competitive salaries (another method we have been told by Administration that has been implemented to address salary compensation problems), it should not be necessary to use these funds for faculty who have been hired within the past 3 years;

3. Compression needs should not include faculty in the upper 25% of salaries within their rank;

4. The discretionary pool of funds should be distributed somewhat proportional to the percent of faculty within each College;

5. If the pay plan comes in significantly below the 4.2% per year over the biennium as recommended by System, the Chancellor may choose either not to implement the redistribution program at all, or to simply reduce the absolute percentage withheld to something less than 10%.
