Minutes of the Faculty Senate Disability Advisory Committee

October 28th, 2009 – Wyman Ed Building Room 209

Meeting was called to order at 2:07pm. Mark Gillen, Connie Smith, Imitaz Moosa, Travis Tubre, Dale Braun, Patrick Okan present.

Dale Braun came to discuss the university Master Planning process, and when Disability Advisory will be able to provide recommendations to the planners. It was suggested that the committee meet again to gather more information and provide advice to the planners; a date in November or December was suggested.

There was concern from some people that offering advice to the Master planning commission was not enough to correct accessibility problems currently existent on campus. It was further argued that multiple facilities projects have occurred on campus since the passage of the Americans with Disabilities Act, yet accessibility in existing buildings has not been improved enough.

Minute-taker was not present when the meeting was adjourned.
