INTRODUCTION
You, as a supervisor or time approver, may manage employees from one or more of the following categories:

- **Student** – Does not earn leave. Paid bi-weekly based on time reported.
- **University Staff – Temporary** – Does not earn leave. Paid bi-weekly based on time reported.
- **University Staff** – Eligible to earn leave hourly. Paid bi-weekly on time and absences reported.
- **FAASLI (Faculty, Academic Staff and Limited Appointee)** – Leave eligibility depends on the nature of their position. Salaries are paid monthly and do not report time worked; only absence.

All employees use the same system to report their time and/or absences. What they enter depends on the above. It is the **employee’s responsibility** to enter their time and absences correctly and timely.

It is the **supervisor’s responsibility** to approve time and absences properly and in time. If that is not done:

- Bi-weekly timesheet employees (student, Temporary & University Staff) **WILL NOT BE PAID**.
- FAASLI employees will have inaccurate leave balances and **could lose sick leave**.

A ‘back-up approver’ is set up for all bi-weekly employees. Coordinate with your back-up if needed.

Please notify HR of any approver or backup approver changes at least 2 weeks in advance of the change by using the Time and Absence Approver Change Form on the **HR Forms** page.

There are three supervisor elements to time and absence approval. Please perform them in the order below:

1. **Approve Absences** (vacation, sick leave, no leave taken, etc.)
   - Applies only to **leave-eligible** employees
2. **Clear Timesheet Exceptions**
   - Applies only to employees paid bi-weekly and non-salaried (non-exempt/hourly).
   - If employees enter time properly there will be no exceptions
3. **Approve Payable Time** (timesheet)
   - Applies to all biweekly employees

#1 Approve Absences

#2 Clear all Exceptions

#3 Approve Payable Time after Time Administration has run again
Supervisors – Approving Absences and Time for ALL employees

Best practice is to perform these activities WEEKLY ON MONDAYS (However, final deadlines are below):

- **End of day Monday after bi-weekly pay period** – Approve absences
- **End of day Tuesday after bi-weekly pay period** – Ensure all timesheet exceptions are cleared.
  - After resolving exceptions, you must wait for Time Admin to run before re-reviewing exceptions and approving payable time.
- **10am Wednesday after the bi-weekly pay period** – Approve bi-weekly timesheets.
- **10th of the month** – Approve prior month’s FAASLI absences
  - Note: FAASLI will either enter individual entries for each absence date/range, or one ‘no leave taken’ entry at the end of the month (dated with ‘start date’ and ‘end date’ of the 1st of the month). 9M faculty contracted for any part of the summer must report for one month during this period.
  - If you are also managing employees from other categories, you may find it easiest to approve FAASLI absences on the weekly or bi-weekly schedule along with the other employees.

Recurring calendar reminders are a great way to remind yourself to do this.

See Bi-weekly schedule found [here](#).

- Timesheets of any employees listed will need to be corrected prior to approving payable time.

ABOUT EXCEPTIONS

- The most common exceptions include Missed Punch, Punch Hours Greater than 12, and More than 24 Hours Reported.
  - A Missed Punch may mean one of two things. Either the employee forgot to punch in or out, or they have entered their time incorrectly. The latter is usually true. If employees work one shift during the day, their ‘in’ punch must be placed in the far-left column. Their ‘out’ punch must be placed in the far right ‘out’ column.
  - For Punch Hours Greater than 12 and More than 24 Hours Reported, verify that the days and times are correct. Things to look for:
    - Was a punch supposed to be ‘AM’ and not ‘PM’? Was it a shift spanning two days?
    - If it was a matter of ‘AM’ versus ‘PM’. Correct and resubmit the timesheet.
    - Shifts spanning two days- See KB document https://kb.wisc.edu/hrs/82812

HOW TO CORRECT EXCEPTIONS

- DO NOT use the ‘Clean up Exceptions’ button.
- If the exception
  - does not require further investigation (the employee did work more than 12 hours), click on ‘Allow’ and ‘Save’.
  - requires further investigation:
    - Best practice is to ask your employee to correct their timesheet errors.
    - If needed, supervisors may also correct exceptions through: Manager Self Service>Time Management> Approve Time and Exceptions>Approve Payable Time
      - Use the appropriate ‘Group ID’ and click on Get Employees
      - Click on the name of the employee with exceptions
      - Click on Adjust Reported Time. This will take you into their timesheet.
      - Look for the line that has a stopwatch icon in the ‘Exceptions’ column
      - Make the appropriate corrections and submit changes by clicking the ‘SUBMIT’ button at the bottom of the Timesheet page.

You will have to wait for the next Time Administration process to run before you can approve these hours using the details in Step 3-Approve Payable Time.
