Do you want to learn more about sustainable land use in our region and get **PAID** while doing it?

Drs. Jill Coleman-Wasik, Jarod Blades and Veronica Justen have teamed up with the Carpenter Nature Center, Science Museum of Minnesota and the St. Croix Watershed Research Station to explore land use issues in the Kinnickinnic watershed and develop K-12+ sustainability-based programming. We are looking for undergraduate students to work on our team for Summer 2016!

**Position details and requirements:**
- Demonstrated ability to work independently and collaboratively.
- Desire to work with diverse groups (stakeholders, youth, researchers, etc.) to achieve project goals.
- Interest in conducting broad-based research spanning the areas of conservation, environmental science, and agriculture.
- Ability to obtain vehicle certification from the University.
- Ability to work up to 40 hours/week during the appointment period of mid-May through mid-August.
- Compensation based on qualifications ($10-12/hour).
- Possibility to receive internship credit.
- Preference given to Environmental Science, Crop Science and Conservation majors.
- Must be a U.S. Citizen.

**Application information:** Email resume and a cover letter (outlining your interest and qualifications for this position) to Veronica Justen (veronica.justen@uwrf.edu) by February 26, 2016.
