Data Request Prioritization Criteria

Urgent
• Status assigned only after a discussion and agreement among IR Staff

Critical
• University or Department will lose accreditation or current State or Federal funding if the request is not completed on time.

High
• Data is required for a report to the UW-System or the Federal Government.
• Data is needed to advance an initiative directly related to the strategic plan.

Medium
• Request is part of an effort to improve department operations or acquire external funding, but is not related to the strategic plan.
• Data needed for a national publication (U.S. News and World Report, Princeton Review, etc.)
• Requests for data from elected officials, municipality, etc.

Low
• External requests where data will be used for purposes related to the internal operations of that organization or business.
