Experience life-changing professional growth.  
Become a tutor with Minnesota Reading Corps or Math Corps.

Minnesota Reading Corps—the nation’s largest state AmeriCorps program—and its sister program Minnesota Math Corps are looking to place over 1,000 full-time and part-time Literacy Tutors and Math Tutors across the state of Minnesota. Tutors not only change the world of kids who are struggling in school, they grow their own professional skills and network.

Our tutors help students grow toward becoming successful readers by the end of third grade, or toward math proficiency by the end of eighth grade. As a tutor, you'll receive training and get real experience. You'll earn a bi-weekly living stipend and an education award of $5,550 (for full-time) or $2,775 (for part-time) to pay for college or loans. In addition, you can put federal student loans into forbearance.

Jump-start your career in a meaningful way. Apply today to become a full-time or part-time tutor! Go to www.MinnesotaReadingCorps.org or www.MinnesotaMathCorps.org. If accepted, you’ll begin your 11-month service on August 7. Send questions to recruitment@servemnaction.org.

One year. This year. Join Minnesota Reading Corps or Math Corps. Serve to grow.
