Proposed Initiative:
University of Wisconsin River Falls will investigate a strategic and comprehensive, secure application delivery strategy that would address the variety of access and deployment options.

Proposed by:
Technology Council

What strategic goal does this initiative support?
Distinctive Academic Excellence; Innovation and Partnerships

Describe how the initiative supports the goal(s).
Improved agility allows for just-in-time deployment of rapidly changing learning and instructional technologies and delivery of associated services to new devices used by students, faculty and staff.

This strategy will provide opportunities to increase organizational efficiency, improve agility and stimulate innovation through partnership with appropriate other higher education and corporate entities.

Based on the definition of university-wide initiative, indicate how the proposed initiative has a university-wide impact.
Increased efficiencies lead to cost savings for the university and improved service delivery to students, faculty and staff.

Please provide a set of benchmarks and/or indicators of success to support your initiative.
- Evaluation of all applications and services provided to students, faculty and staff
- Development of a comprehensive service catalog
- Developed cost benefit analysis matrix for hosting versus cloud/private cloud service
- Developed software cost benefit analysis matrix for buy versus build

What elements are involved in the initiative?

Indicate how each element would be/would not be affected by the initiative.
