The area for reporting Academic Peril and Non-Attendance works the same. Some new functions are 1) the ability to sort the list by the data found in any column; 2) the ability to “Notify” either all or selected students from the class and 3) the ability to download the roster directly from this page into a format for Excel. Be sure you have made eSIS a Trusted Site. For help on how to make trusted sites, see the ITS web site area.
